GERONAZZO PORTE

Da 40 anni concepiamo porte in legno

"L'unico modo di fare un ottimo lavoro è amare quello che fai". Questo è il punto centrale della nostra filosofia aziendale, ovvero produrre **con il cuore** porte per interni in **legno** altamente personalizzabili.

Secondo noi è importante sottolineare il termine "legno" poiché al suo interno si racchiude la nostra mission, ovvero concepire un prodotto **artigianale**, di qualità e che duri nel tempo.

La **personalizzazione** delle nostre porte è fondamentale perché il cliente deve avere la possibilità di scegliere tra un'ampia gamma di specie legnose e di finiture in quanto riteniamo che ogni ambiente debba avere la sua porta!

La chiave di volta che unisce l'artigianalità e la personalizzazione delle porte marchiate "Geronazzo" sta nella **creatività.** Quest'ultima, si manifesta nella disposizione delle venature del legno, nell'abbinamento colore-specie legnosa e nelle lavorazioni particolari fatte in fase di finitura.

La nostra visione aziendale è quella di **dare un futuro migliore per i nostri figli.** Noi applichiamo questo pensiero giorno dopo giorno tramite la sincerità e la trasparenza del nostro operato, credendo profondamente nei nostri valori.

We have been designing wooden doors for 40 years

"The only way to do great work is to love what you do".
This is the core of our business philosophy: we manufacture with passion fully bespokable internal wooden doors.

*We think it is important to emphasize the word "wood", because it expresses our very mission i.e. to create high-quality and long-lasting **craftsman** products.*

*The **customization** of our doors is essential because the client should have the opportunity to choose from a wide range of wood species and finishes as we believe that each room should have its matching door!*

*The key to combining craftsmanship and customization of "Geronazzo" doors lies in **creativity.** The latter is evinced by wood grain, the colour-wood species combination and special finishing.*

*Our vision is to **provide our children with a better future.***
We work day after day with this mindset, in an honest and transparent manner, as we deeply believe in our values.

Signori, originali si è o non si è.
Non si può essere originali per forza.
Chi vuol essere per forza originale,
sarà stravagante, non originale.

Originality cannot be bought!
Originality cannot be forced!
Those in pursuit of originality will
only end up being ostentatious.

Gli uomini comuni guardano le cose nuove con occhio vecchio, l'uomo creativo, osserva le cose vecchie con occhio nuovo.

Ordinary men look at new things with old eyes, the creative one looks at old things with new eyes.
